- The Dealer has the choice of either installing and receiving an installation labor credit, or having the ADI complete the installation.

### Ordering:

- The Camaro single line LPOs will be available to order via the Workbench Configurator beginning 10/13/08.

There have been several questions regarding descriptions for the single line LPO's. Descriptions of the LPO's and the entire portfolio of Camaro Accessories can be found in the Dealer Order Workbook which is housed on [chevylaunch.com](http://chevylaunch.com).

A majority of the questions that have been taken were related to the Ground Effects package. So included below is the description of the Ground Effects Package.

### Camaro Ground Effects

Enhance the bold styling of your new Camaro with the Ground Effects Package. The package contains a front splitter, side rockers, and a rear diffuser with integrated exhaust bezels. The SS front splitter had its surfaces tuned to maximize down force via wind tunnel testing. It is available in dark argent metallic.

Below are renderings of the Ground Effects Kit for your reference.

Please look for future communications regarding images for the rest of the Camaro Accessories portfolio.
