

# Need an oil change?

Here at Renegade Performance we pride ourselves on offering state of the art automotive services that meet or exceed your expectations. Most manufacturers' recommended maintenance schedules fall short when it comes to ensuring the longevity of your vehicle's critical systems. Some manufacturers base their service schedules on ideal driving conditions which do not take into account the harsher environments our vehicles are exposed too. High heat, salty air, stop & go traffic, and arid desert like conditions all would be considered severe duty in our opinion. In environments such as these, adhering to your vehicle's oil change schedule is imperative.

In environments such as these, we'd recommend our 12,000 mile 45 point performance service in between your standard oil change schedule. This service includes the removal and replacement of ALL your vehicle's vital fluids as well as a visual inspection of all critical vehicle components and systems.

Our performance service plans start at just \$399.95 plus parts/labor. **Bring in this flyer for a 10% discount!** Below, is a *partial* list of services included:

CHECK ALL BELTS FOR WEAR & TENSION	CHECK BATTERY & TERMINALS
