Camaro 1LE Strut Tower Brace NEW
22756880

Standard on the Camaro 1LE, this lightweight, aluminum underhood tower-to-tower brace enhances chassis stiffness, contributing to a firmer feel behind the wheel and more-direct steering response. It is a direct bolt-on for 2011+ Camaro SS and V-6 models. Kit includes the brace and installation hardware.

NEW BIG BRAKES for Camaro V-6 & SS

SS V-8 Camaro to ZL1 Brembo Front Brake Conversion Kit* **NEW** 22959672

Upgrade the front brakes on your 2010-and-later Camaro SS with the larger brakes from the supercharged Camaro ZL1 – including racing-style two-piece, 14.6-inch front rotors and six-piston Brembo aluminum calipers, in black with the ZL1 logo. That compares with the 14-inch rotors/four-piston calipers on SS models.

The ZL1 two-piece rotors offer greater resistance to warping and potentially longer rotor life, as well as reduced weight. The design features a separate cast iron rotor brake ring mounted to an aluminum “hat” that attaches the brake assembly to the wheel hub. The hat and brake ring cool at different rates, which helps the rotor dissipate heat more effectively. This racing-style disc design enhances braking performance under track operating conditions. Kit includes two rotors, two calipers, pads and mounting hardware.

Add the optional ZL1 rear caliper kit, P/N 23104466, to compliment the style of the ZL1 front caliper.

NOTE: Requires 20" wheels for caliper clearance.

*For V-6 Conversion use Complete Kit P/N 22989384 (front and rear)

Camaro V-6 to ZL1 Brake Conversion Kit (Complete Front & Rear Kit) NEW 22989384
